## TRIFOLD® RAMP Advantage Series®

Available in 5-, 6-, 7-, 8-, & 10-foot lengths

The TRIFOLD Advantage Series portable wheelchair ramp, with its unique 3-fold design, offers the length required for wheelchairs and scooters to easily access steps, vehicles, and raised landings. The ramp is designed to be used and carried as a set, or if desired, can be quickly separated into two individual sections, making it even easier to use, carry, and store. By simply removing two hinge pins, the TRIFOLD Advantage Series ramp quickly separates into two lightweight halves, each with their own carrying handle. The durable, patent-pending hinge with interlocking brackets provides smoother operation and reduced pinch points. The portable ramp features high-quality skid-resistant tape with yellow safety strips and a self-adjusting bottom transition plate for easy conversion from ramp to ground. Unfolds to a 29" wide platform. Manufactured of welded aircraft-grade aluminum. Features an 800 pound weight capacity and three-year limited warranty.
